

* Please understand key indicators & functions at the first operation.

FRONT PANEL & KEY FUNCTIONS

Key Name	Symbol	Descriptions
Output Signal Key	ⓐ	1. In the measuring status, press this key can start output signal, the indicator will be lighted, press this key again can stop output signal, the indicator will be dark.
Enter Key & Save Key	ENT	1. In the measuring status, press this key can enter to parameter pages. 2. In the parameter setting, press this key can save the value & go to next parameter.
Shift Key & Output Range Setting Key	←	1. In the measuring status, press this key can enter to the output range setting. 2. In the parameter setting, press this key can move the cursor left.
Up Key	↑	1. In the parameter setting, press this key can increase the digits.
Down Key	↓	1. In the parameter setting, press this key can decrease the digits.

GENERAL MODE OPERATING PROCEDURES

Block Charts	Display	Descriptions	Default
<p>Power On</p> <p>↓</p> <p>10000</p> <p>Press ←</p> <p>↓</p> <p>10000</p> <p>Press ENT</p>	<p>Measuring Status</p> <p>Output Range Setting</p>	<p>Output Range Setting</p> <p>Present value for measurement.</p> <p>Press ←↑↓ to modify output range setting.</p>	<p>00000</p>
System Setting Group Procedures			
<p>10000</p> <p>Press ENT</p> <p>↓</p> <p>tyPE</p> <p>Press ENT</p> <p>↓</p> <p>StEP</p> <p>Press ENT</p> <p>↓</p> <p>CoUnt</p> <p>Press ENT</p> <p>↓</p> <p>vPEro</p> <p>Press ENT</p> <p>↓</p> <p>vSPAN</p> <p>Press ENT</p> <p>↓</p> <p>APERo</p> <p>Press ENT</p> <p>↓</p> <p>ASPAN</p> <p>Press ENT</p>	<p>Measuring Status</p> <p>Output Signal Type Setting (tyPE)</p> <p>Step Output Range Setting (StEP)</p> <p>Pulse Output Range Setting (CoUnt)</p> <p>Voltage Output Zero Adjustment (vPEro)</p> <p>Voltage Output Span Adjustment (vSPAN)</p> <p>Current Output Zero Adjustment (APERo)</p> <p>Current Output Span Adjustment (ASPAN)</p>	<p>Present value for measurement.</p> <p>Press ↑↓ to select the output signal type (V, mA, Hz, Pulse)</p> <p>Press ←↑↓ to modify step output range setting. (0~100.0%)</p> <p>Press ←↑↓ to modify pulse output range setting. (1~10000)</p> <p>Press ←↑↓ to modify voltage output zero adjustment. (-9999~9999)</p> <p>Press ←↑↓ to modify voltage output span adjustment. (-9999~9999)</p> <p>Press ←↑↓ to modify current output zero adjustment. (-9999~9999)</p> <p>Press ←↑↓ to modify current output span adjustment. (-9999~9999)</p>	<p>u</p> <p>500</p> <p>1</p> <p>00000</p> <p>00000</p> <p>00000</p> <p>00000</p>
